# **MEDICINE HAT HIGH SCHOOL**

# EXCERPTS FROM OUR MHHS HANDBOOK

## Principal's Invitation to Use Our Handbook

Medicine Hat High School is a strong, vibrant school which has truly unique characteristics. The population is approximately 1,400 students in grades VIII to XII. The comprehensive nature of the school serves all of South Eastern Alberta. A variety of programs in academics, technical education, business education and the arts stress excellence in every area of student development. These programs are supplemented by over sixty clubs and activities acting under the auspices of the two student councils.

The major function of this hand-book is to familiarize students, as well as parents, with the school, its policies, its operation and student activities.

How well students do at Medicine Hat High School is a combination of many factors. The greatest single factor is student involvement. I urge all students to get involved with in-class and out of class activities. How much our students get out of their attendance here is directly proportional to their investment of time and energy.

Very best wishes are extended to each and every student who reads these pages.

Mr. D. Beresh  
Principal

## MHHS LIBRARY

The library at MHHS is open from 8:00 to 4:30 each school day. The library's collection of over 20,000 books is intended to support research assignments given in each subject area, but popular books, paperbacks and magazines are to be found in our collection as well. The librarian is Mr. D. Behnmler.

Students are encouraged to use the library often, and to use it well. The library rules are for the most part the same as the rules for other public areas of the school, as described elsewhere in this handbook (i.e. no running, littering, swearing, etc.). In the library, however, expectations for student behaviour are much higher, and supervision is much closer. Food, candy, and beverages are not permitted in the library at all, and will be confiscated if brought in. Students who cause a disturbance will have their names recorded, and will be asked to leave. It is the firm belief of the library staff that the students of this school have the right to read and study in an environment which is free of litter and of distractions, and we will do our best to ensure that you will find the library to be a pleasant place in which to spend your free time.

There are no fines for overdue books, but students are expected to meet their responsibility to return books on or near the due date. Books are always due on a Tuesday (except for encyclopedias and reserved books, which are borrowed for one day at a time). Check the box in this handbook each time you borrow a book, to remind yourself on which Tuesday it will become due. On Tuesday morning students are reminded in home room to check all library books to see if they have fallen due, and a list of students with overdue books from the previous Tuesday is also read and posted. Students who ignore this notice will have their library borrowing privileges suspended for a minimum of two weeks.

### School Goals

Our administration and staff have chosen three major goals which will be the focus of our efforts over the next few years. These are:

1. That students are able to gain confidence as they achieve and demonstrate competence.
2. That students acquire critical thinking skills and decision making abilities, accompanied by a recognition of responsibility for results of decision making.
3. That students develop and demonstrate acceptable standards of conduct and citizenship.

### Advanced Diploma and Matriculation

The Advanced Diploma is a high standard diploma given by Alberta Education. Matriculation is a university's entrance requirements. A university's entrance requirements may vary from area of study to area of study, as well as from one university to the next. # DEDICATION

The Yearbook Staff is pleased to dedicate this year's Yearbook to Mr. Robert William Hartog, Drafting Specialist.

Our school has been privileged, during its years of existence, to have had and have many excellent teachers provide our students with a balanced education, curricular and extra-curricular. One such teacher is Mr. Hartog. He has provided our students with a first-rate program in the Technical-Vocational Department as a Drafting Specialist. A number of our students can attest to the above statements as they have won many awards in drafting.

We are very sorry to lose such a stalwart teacher; but are very happy to be able to wish him many fulfilling years in this retirement.

**Robert William Hartog**

When the school bell no longer beckons the students to order, Mr. Hartog will transfer his classroom drafting expertise and experience to full time hobbies and orchid floriculture.

Mr. Hartog's life and education began in Semarang, Java, where he became fluent in Malay, Javanese, English, French and German, in addition to his native Dutch. He finished high school and an engineering course in Amsterdam, Holland. Caught in World War II, Mr. Hartog became active with the Dutch Resistance Forces. It was here he met and married his wife, Doreen.

Returning to Indonesia, Mr. Hartog served with the engineering staff of Shell Oil Marketing Division in Java, Sumatra and Singapore. He immigrated, with his family, to Canada in 1953, and joined Imperial Oils' Edmonton refinery. He became a Canadian citizen in 1958.

Answering Alberta's urgent call for technical-vocational teachers, Mr. Hartog entered the University of Alberta with a bursary. While teaching at Drumheller in 1967, he simultaneously completed his Bachelor of Education Degree. His tenure at this school was interrupted by a request from External Aid to accept a teaching assignment as head of the drafting department at the Ifunda Secondary Technical School, Tanzania, East Africa. The Hartogs came to Medicine Hat in 1974 where the position of senior drafting instructor at Medicine Hat High School has been held by Mr. Hartog since that time, it is from here that he will retire in June.

In 1976, upon completion of course work and a thesis on, "Secondary Education in the Netherlands with Special Emphasis on Vocational Education," he was the recipient of his Master's Degree in Education.

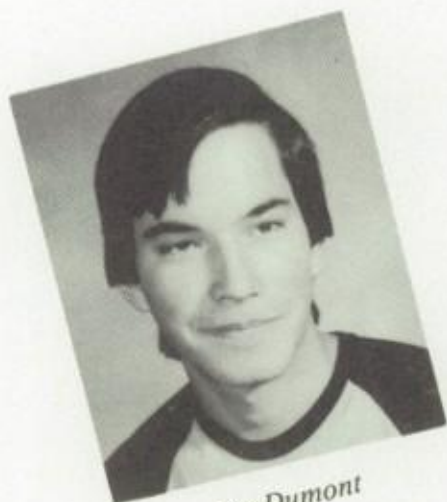

Mr. Hartog is a member of the Royal Canadian Legion, the B.P.O.E. and presently president of the Dutch Canadian Society of Medicine Hat. The Hartogs have one son and three daughters, four granddaughters and four grandsons.

Mr. Hartog believes that one must "be firm, consistent, but fair in all dealings with students, for then one earns their lasting respect."

## STAFF

*Lee Dumont

Right now, we would like to apologize to those students whose names we did not spell correctly, missed, etc. The yearbook staff is sorry for any errors that can be found in this book.

We would like to thank our advisor, Mr. Rodnunsky, a special thank you to Mr. Skjenna, our photographer, say "good luck" to the grads, welcome all 1986-87 students and say thank you to all who helped us out in any way.

## PRINCIPAL'S MESSAGE

Thank you to the Yearbook Committee for the opportunity to write a few words in the 1985-86 issue of CH<sub>4</sub>.

It does not seem that a whole school year has come and gone. As one gets older "TIME" seems to mean more than when one is younger. But you must remember that "TIME" is one thing that you can never recover.

This school year is finished; those of you that feel this year has been a success, congratulations. To those of you who did have some difficult moments, use this school year as a learning experience.

For me it was a learning experience, and I have thoroughly enjoyed it. As in any occupation, there are the low points and high points. I will always remember the high points of this year. Many of the high points are directly a result of your efforts. I thank you for this as well as your patience, understanding and cooperation when I had to make some tough decisions.

With this experience I know I am a better person and I wish to each and every one of you that you can say the same thing as a result of being part of Medicine Hat High School, the finest anywhere.

To those of you not returning, the best of everything in your future endeavours. To you that are returning, may 1986-87 be even a better year.

## SENIOR HIGH COUNCIL

*Deanna Perschon*

The 1985-86 school year for Senior Student Council was truly a challenge. There were failures as well as successes and many new ideas were undertaken.

Congratulations to all those sports teams who helped make this year exciting and enjoyable for their fans.

The Tri-School Council continued its existence with a successful dance at the start of the year and an enthusiastic participation in the activities involved with International Youth Week. This interest in Tri-School events will hopefully continue in future years.

In my year as Senior Council President, I owe a great deal of thanks to many important people. Thanks to the teachers, advisors, coaches and sponsors of the numerous clubs, organizations and teams. A special thanks to all the room representatives who contributed their time and efforts to Council. To my executive — there is not enough I could say to express my gratitude for their help this year: Vice-President — Stephanie Haupt; Social Director — Andrea Dickie; Intramural Director — Kim Wyse; Secretary — Colleen Ebel; our two fantastic Treasurers — Kevin Kornelson and Dave Krause; and also to our tireless advisor, Mr. Massini. Thanks to all of you for everything.

Thanks to all who assisted me in completing my term as '85-86 President and good luck to next year's Council, hopefully the changes in form will benefit you. Best always,

Deanna Perschon  
President

# STAFF

We are in our third year in honouring a member of our Teaching Staff as the "Master Teacher" of M.H.H.S. for the year 1985-86. After two successful students' surveys during 1983-84 and 1984-85, the 1985-86 survey was equally gratifying.

This year's teacher, that topped the polls, was Mr. Gottselig.

Mr. Gottselig's history:

- Born in Regina, Saskatchewan
- Educated at Central Collegiate, Regina, University of Saskatchewan; University of Regina; Gonzaga University (B.Ed., B.A., M.Ed., Ed.D., all but dissertation)
- Began teaching in the Regina Separate School system, 1962-66
- Moved to Medicine Hat in 1968-69, teaching at C.H.H.S. until 1977
- Came to M.H.H.S. in 1977
- Taught all grades from 3-12, but prefers high school

Mr. Gottselig, a member of our "superb" English Department (where each member could qualify as a "Master Teacher"), is a "Master Teacher" since he fulfills the criteria of a teacher (responsibilities and expectations) in every way. Mr. Gottselig stated: "I try to be as fair and humane to students and see that they get the best I can give them. I believe people (students, fellow teachers, etc.) should be treated with trust and honesty. With a little luck I hope I can remain at M.H.H.S. for a few more years as we have a great school here and some great students. My experiences with the students at M.H.H.S. has been very satisfying."

The students, parents and School Board No. 76 are very fortunate to have this outstanding educator in our district. The yearbook staff is proud and honoured to proclaim Mr. Owen Gottselig "Master Teacher" of M.H.H.S. for 1985-86.

We thank you for being on our staff.

### Thank You!

People always "hear and see" what the President, Vice-Presidents, Department Heads, etc., in a progressive and growing business, have accomplished. But these accomplishments are usually not possible without the business firm's lower echelon.

In our School System, a good school usually becomes an excellent school because of the "support staff" — the backbone of any school. M.H.H.S. has such a support staff and we, the students and teaching staff, appreciate this hard-working group of individuals, and with this statement are officially acknowledging this fact.

To all Grads, I wish you all the luck and success in your future endeavours. Thanks for three great years of wonderful memories I will never forget.

## VALEDICTORY ADDRESS

Parents, Teachers, Fellow Students and Honourable Guests:

Tonight is the night that we, the Class of 1986, officially leave the shelter of the public school system and proceed to enter the so-called "real world." I can't honestly say that I'm going to miss my school. That's not to say that I didn't have some good times there, but, hey, we should be looking to the future, not the past. After all, who here would like to go back and spend another year in high school? I certainly wouldn't. Enjoy your memories, have fun with your high school friends, but be willing to leave them and move into the world.

We must thank the many people who have worked behind us to bring us to this point in our education. We must thank our parents, who have supported us and given us needed encouragement, and our teachers, who have worked with us both in and out of school hours in order to make our school years fruitful and enjoyable. Sure, we didn't enjoy every class but we must admit that some teachers did indeed do a good job. I'd also like to thank the hard-working members of the graduation committee and the teachers that helped them in making this graduation such a success.

Tonight is a turning point in our lives. From now on we must make our own decisions. There are no excuses any more. What we do is our responsibility and it will directly affect us. However, graduation is not so special that it confers tremendous decision making abilities on to us. Many of us have a great deal of trouble even making minor decisions but we must now prepare to make some very major decisions.

Many options are open to us upon graduating and we should not limit ourselves in life. We should be willing to take on future challenges. Now is the time to make the decision whether to become trapped in a boring job and lead a comfortable but dull life or to do something that you really want to do. Maybe security is what you desire or maybe that's

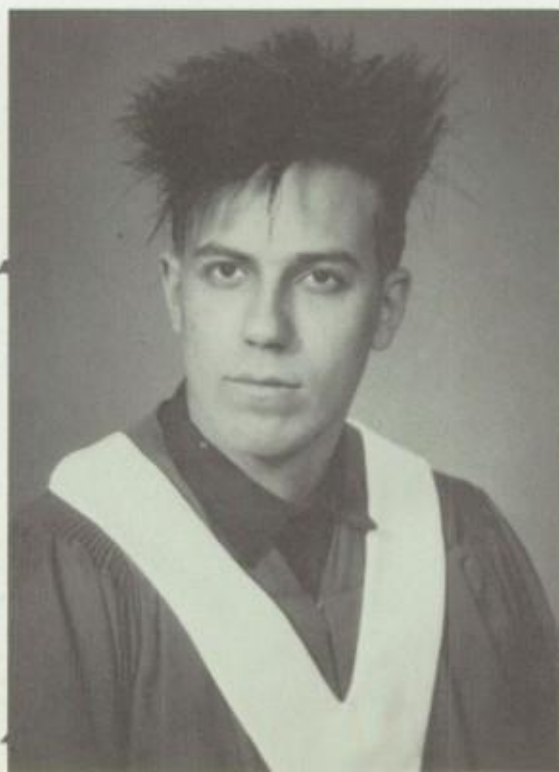

just what we've been taught to want. Remember the great aspirations you had in Grade 10? Remember all the things that you were going to do in life? When the cold reality of leaving school hits us, these dreams are abandoned. After all, we have to be "realistic." And yes, if you are practical, you probably will lead a secure life . . . but is that all you want? Don't you have creative urges? Don't you want to explore the world? Would you really prefer a regular job and a mortgage on a nice house? Take the risk. Break free from society's expectations and do something out of the ordinary. Don't become just another ant in the hill.

I also think that we all have the potential to change our world in some way. We must realize that the status quo is not always good. There are many problems in our world and these problems aren't going to be solved by accepting or ignoring them. Apathy only allows old problems to intensify and new problems to evolve. Don't accept. Work to change things for the better. Question the rules of society. We should not accept the system just because it's there. We must not allow religion, money and the other influences of society to rule our lives. We must use our lives to do things that we personally know are necessary. We must stand by our own personal principles. Let's hold on to our youthful idealism and reach for something better.

Thank you. Peace and anarchy.

Martin Moen

# TO THE GRADUATES OF 1986

To You, the Graduate:

May I take this opportunity to write a few words to you about your greatest achievement to date, Graduation Day, 1986. Also, this year marks a special event for Medicine Hat School District #76, which is celebrating its Centennial. You indeed stand in good company.

A few years ago you entered the halls of Medicine Hat High, a bit afraid, wide-eyed and yet eager to begin your long awaited high school career. It did not take long for you to get into the "swing of it" and, before you could really say "I have just begun" it was time to think of the end — TOMORROW, your high school graduation. As a fact, that "TOMORROW IS TODAY".

It is natural that you tend to look ahead and wish for that TOMORROW but what is most important is that you have a goal when that TOMORROW arrives. During your years at Medicine Hat High, it is my sincere hope that you have taken advantage of every opportunity to accomplish the basics required, in part, to enable you to reach that goal. All the educational experiences that were provided for you will have meaning, if not today, at some point in your future.

Medicine Hat School District #76 has had a century of TOMORROWS and TODAYs. Remember your "TOMORROW STARTS TODAY" and I wish you a "CENTURY OF TOMORROWS".

On behalf of the entire Medicine Hat High School staff may I congratulate you and wish you the very best, you have "EARNED IT".

# CHURCH SERVICE

## Litany of Thanksgiving

Leader: Through your guidance we have come to this point in our lives.

Grads: Thank you Lord.

Leader: We are grateful to parents who kept hounding us when we were slack, who encouraged us when the work was hard and we felt like giving up.

Grads: Thank you for them, Lord.

Leader: We are grateful for teachers who put up with a lot, who worked hard to open our minds, and who saw in us potential we did not see.

Grads: Thank you for them, Lord.

Leader: The future frightens us, God. It's hard to get jobs. There is no guarantee that further education will help. For some of us, we really aren't sure what we want to do with our lives.

Grads: Thank you for those who believe in us, even when we have trouble believing in ourselves.

Leader: We stumble around in our darkness; we fail to do the good we set out to do; we do a lot of harm we try not to do.

Grads: Reach us with your light that can penetrate our minds.

Leader: O God, lover of the world, we ask your blessing on the downtrodden, the victims of clash cultures.

Grads: Bless the threatened peoples of the earth.

Leader: Here are the poor, the host of people young and old, who never have enough, and who seem doomed to be without, while others have abundance.

Grads: O God, bless the poor of the earth, the forgotten, the unnoticed, the unheard from.

Leader: We want our lives to accomplish something. But all kinds of things go wrong with our good intentions. We long for work that will justify our existence. We want to be able to say that because of our work, life is a little better on earth.

Grads: On every hand there are battles to join, wrongs to be put right, and needs to be met. But so often we fuss and sweat and toil and mess up and quit.

Leader and Grads: If you are with us, Lord, we can go from this place in peace, care with compassion and take up our tasks with courage.

## Friends

— Michael W. Smith

Packing up the dreams God planted  
In the fertile soil of you,  
Can't believe the hopes He's granted  
Means a chapter in your life is through.  
But we'll keep you close, as always —  
It won't even seem you've gone;  
'Cause our hearts in big and small ways  
Will keep the love that keeps us strong.

And friends are friends forever  
If the Lord's the Lord of them;  
And a friend will not say never  
'Cause the welcome will not end.  
Though it's hard to let you go,  
In the Father's hands we know  
That a lifetime's not too long  
To live as friends.

With the faith and love God's given  
Springing from the hope we know,  
We will pray the joy you'll live in  
Is the strength that now you show.  
And we'll keep you close, as always —  
It won't even seem you've gone;  
'Cause our hearts, in big and small ways  
Will keep the love that keeps us strong.

**Chandra Aasman**

Ace can be heard saying "I'm good . . . I'm amazing!" or can be found swimming, horseback riding, reading, or caring for pets. Her pet peeve is English teachers who keep saying: "Are there any questions?" Her ultimate doom would be to stay in school the rest of her life, which would interfere with her ambition to be a multi-millionaire.

**Glenn Adams**

Scarface likes bugging Lynette, playing hockey, golf and tennis, and riding his bicycle. He hates finding his sister's mascara on the bathroom towels. He'd like to be Emperor of Swaziland, but he'll settle for being a chartered accountant.

**Tim Adams****Scott Anderson**

"Quasimoda" is heavily involved in meditating and in confused religious rituals. He dislikes rusty beds of nails, and bananafish bones in his teeth. His word of wisdom to the grads. "Ohm".

**Todd Anderson**

Noted for his manual dexterity, The Claw fears above all else losing his hands in a tomato slicer — wielded, perhaps, by a woman with no sense of adventure!

**Leanne Armstrong**

Andy likes horse shows, rodeos, and Danny ("That's so nice.") She'd like to be a horticulturist, so she can stop being called a farmer forever. She particularly wants to thank her Mom and Dad for their support all these years.

**Niesje Bakker**

To have nowhere to go on a Friday night would be Niesh's ultimate doom, but she keeps busy going to Cheeters with Sandy and dancing with Day (Z). She's particularly peeved by people who think they know everything. Her ambition: to be a hairdresser in Europe, and marry money. Her special comment: "Thanks, Mom; I love you."

**Kerry Banek**

"CareBear" dislikes curfews but enjoys sewing, hot summer days, and the great outdoors. She'd like to become manager of a ladies' clothing store in the future.

**Kevin Barfus**

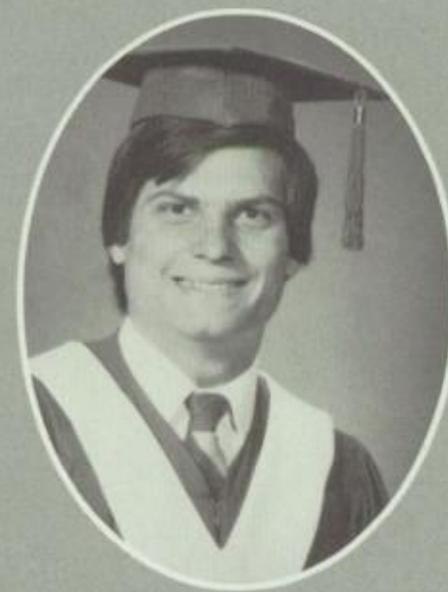

**Andrew Barnes**

*Law enforcement is this man's ambition — unless he starts getting speeding tickets instead of warnings! He dislikes know-it-alls, but likes automobiles and recreational shooting.*

**Gregory Bauer**

*"I need a Slush!" Greg will be glad to say goodbye to English classes and homework checks, as he pursues a future in farming or engineering. Until then, he'll pass the time skiing, motorbiking, partying, or working with computers.*

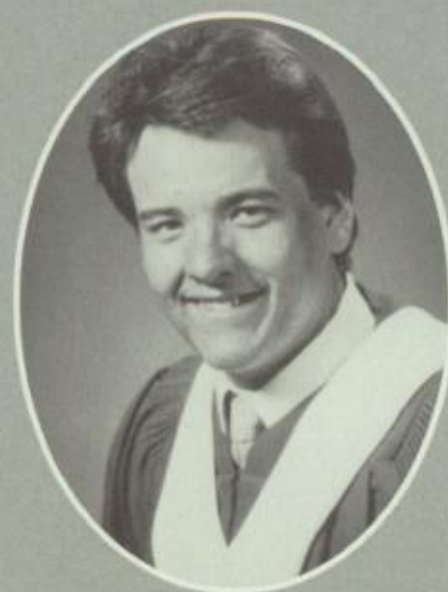

**Wendy Baugh**

*Wendyll's favorite pastimes are sewing, jogging, knitting, the Jane Fonda workout, and men. Her pet peeve: tall friends. She'd like to be a biologist — but she'll have to finish her grad dress first.*

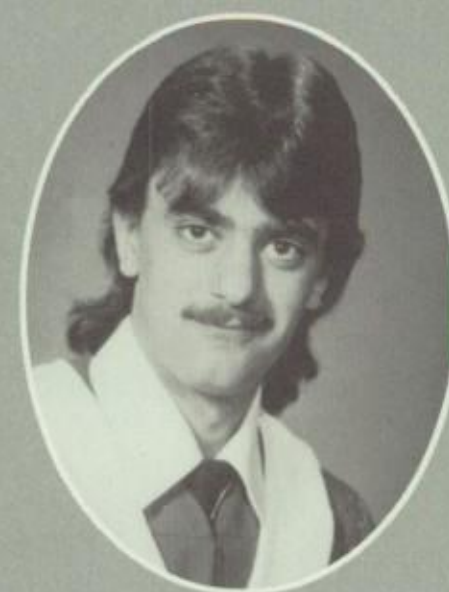

**Baynham, Tyler**

*When Shish isn't busy with football, softball, and good-looking ladies, he's asking "What kind of car do you drive?" He hopes to be an architect.*

**Gerald Beatch**

**Blair Becker**

*Blair can often be heard asking "Were we supposed to do assignment 1?" His ultimate doom: to be trapped in Physics forever. He'd like to be a medical doctor — then maybe he could do something about his pet peeve, smakers.*

**Julliette Bellavance**

*Randy Bellavance*

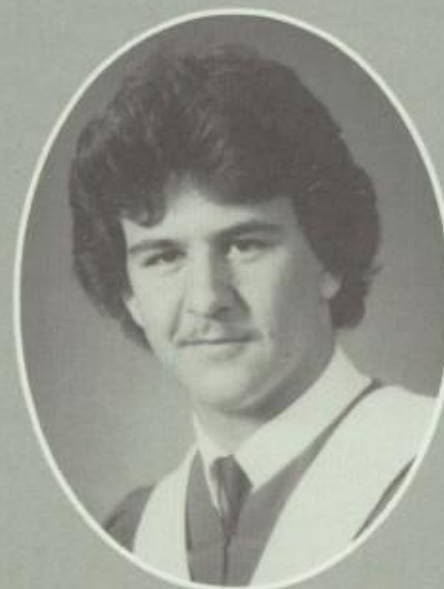

*Stephanie Bennett*

*Richard Berrington*

*Re-charge wants to be a rich oilfield man, but till then he'll keep on skiing and riding motorcross. His word to the grads (and everyone else): "Relax."*

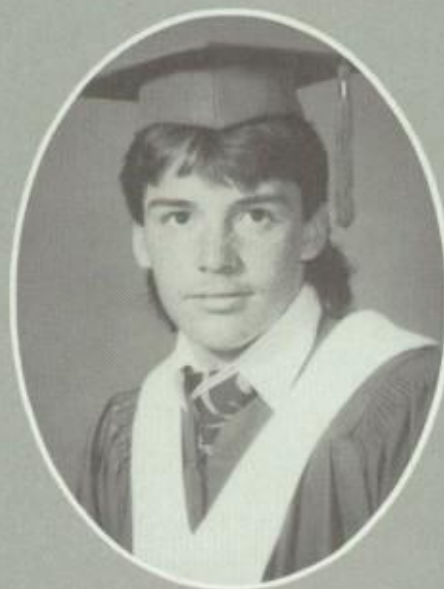

*Shelley Bezler*

*Rod Bigland*

*Bigsenrae's hobbies of hopscotch and pouring salt on lizards should be a great help when he applies for a carnival job as "Rodney the dog-faced boy" or the snake lady.*

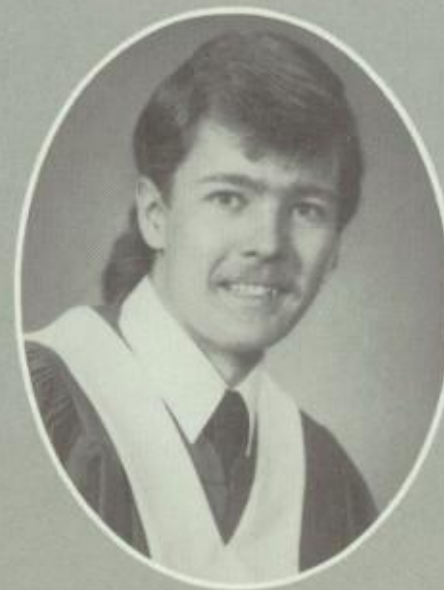

*Robert Blackwood*

*Kelvin Blatz*

*Blatzey likes cars, Leanne, golf, Leanne, camping, and Leanne. His idea of the ultimate doom would be to work in the school cafeteria again. His future ambition is modest: he'd like to own the same car for more than 6 months.*

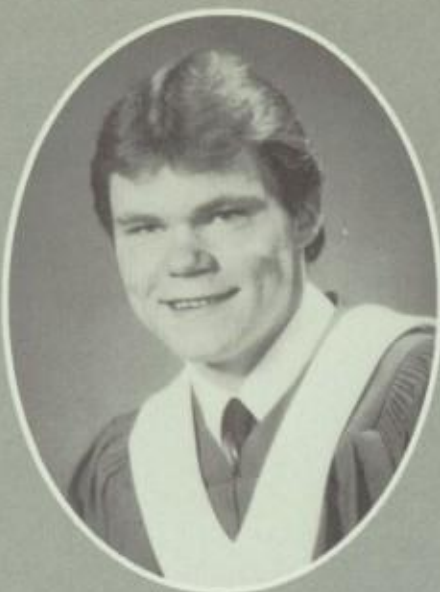

*Lonnie Bleile*

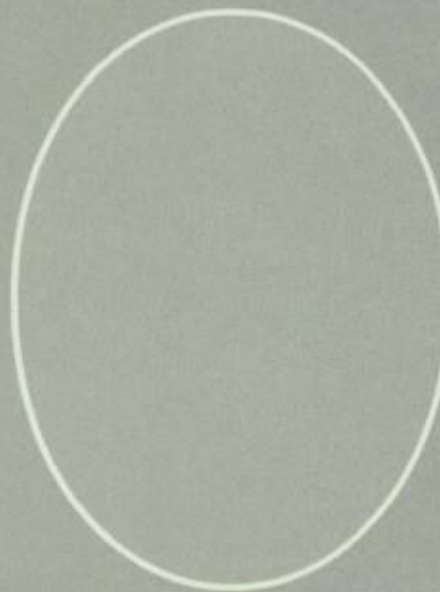

**John Bootland**

"Get out of my face!" says Branc, who needs the room for football, refereeing hockey, girl-watching, and Budweiser studies. He'll be happy to leave English behind, as well as his habit of getting windshield notes for angle parking. If being a welder falls through, he'd like to be an NHL official.

**Neil Brady**

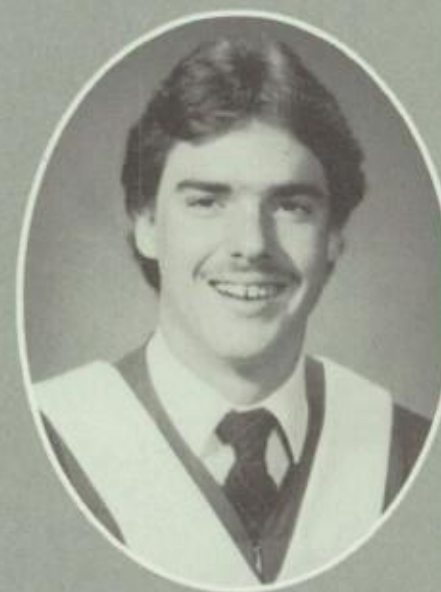

Shady Brady likes weightlifting, hockey and drinking, and dislikes dumb people. He hopes for a good, long healthy career (at what?) and he never wants to be ripped off by people he knows.

**Joanne Brookes****Randall Brost****Gregory Brown**

Greg would really like to get out of Redcliff some day; until then, he'll cruise, party, drink, and sleep in. His ultimate doom: to be marooned on an island with Mr. H.

**Sean Bueckert**

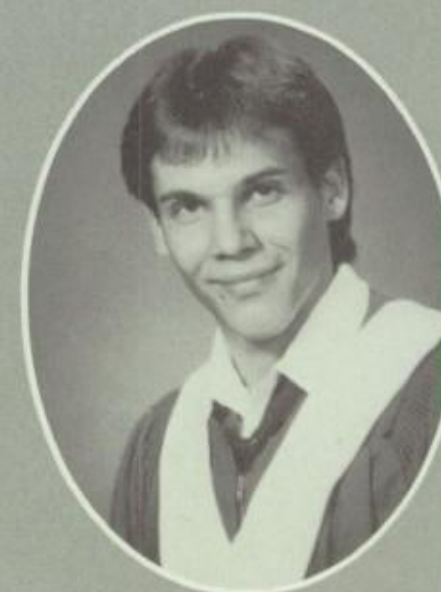

Sean really hates people who park sideways in the parking lot, and his greatest fear is a blind date with a cow. He really likes fast Hondas, volleyball, and water-skiing. His ambition: a secure, well-paying job.

**Karen Buss**

Karen enjoys spring skiing, golfing, bike riding, hairdressing, and Grad Fun (?). She doesn't enjoy radar traps, and her ultimate doom would be to get another speeding ticket. (She could say "It just doesn't matter!") Some day she hopes to become an aesthetician.

**Kirt Butuk**

Crash would hate to be seen in a Ford, so he never tests their flexibility in accidents. He hopes to obtain an Electrical Engineering degree from University of Calgary.

**Donna Carlson**

For little d to own another '77 Aca-  
dian would be "devastating." She  
keeps busy with hairdressing and  
Randy, and plans to own a beauty  
salon of her own.

**Michelle Carrier**

Shelly hates the thought of living in  
Redcliff all her life, but she hates  
the Calgary Flames even more. In  
fact, her ambition is to hire a hit  
man to cut off Lanny MacDonald's  
moustache. "To all grads: thanks  
for the good times."

**Shona Carriere**

Crunch dislikes people with bouf-  
fant hairdos, but likes partying,  
cruising, and spending money. Her  
future ambition is to find an ambi-  
tion.

**Marney Chalifoux**

rocking etc. She'd hate to die and  
be reincarnated as a Prep; stand-up  
collars are bad enough.

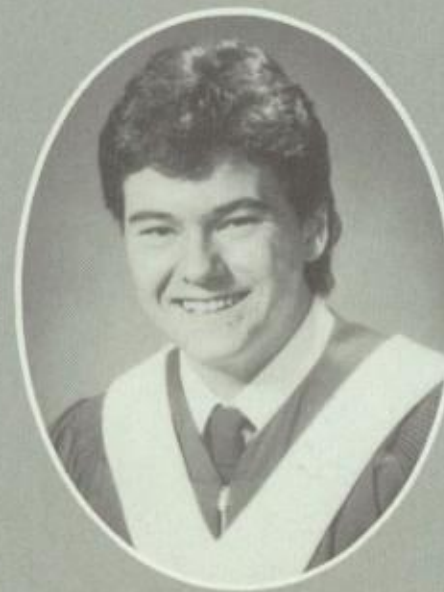

**Paul Chance**

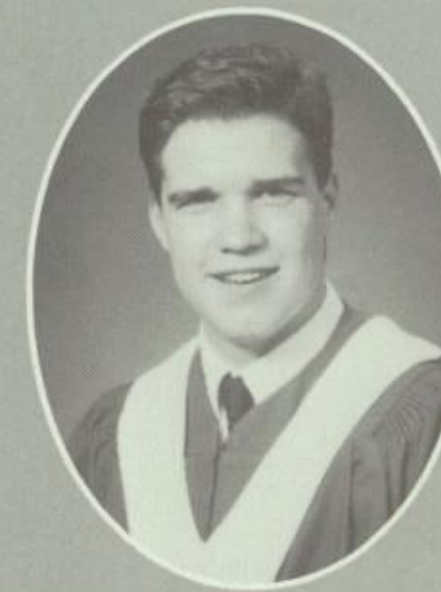

**Denise Chandler**

**Ken Chisholm**

**Dean Chynoweth**

**Keith Clugston**

*Ted's ultimate doom would be to scrape dough off the walls and floors of the Co-op bakery for the next ten years. Until that happens, he'll keep busy ditching LTDs on Eagle Butte Road, and complaining about Brian's belly-button lint.*

**Russ Coffey**

*Gus would like a secure, well-paying job some day — someplace where people know enough not to park sideways. He likes waterskiing, Dodge products, and Kari. With any luck, he'll be leaving school activities behind.*

**Taralynn Collins**

*T.C. enjoys travelling, reading, and saying "I have no friends." She wants to be a successful lawyer, but first she'd like to get her driver's license.*

**Paul Cook****Laura Cox**

*Eating, sleeping, and deep-sea basket weaving keeps Lar busy — and so does keeping people from touching her lunch. Her ultimate doom: to live in Danger Bay.*

**Christy Craddock**

*Parties, Saskatchewan men, and baseball are some of Critter's favorite things; mornings after the nights before, aren't. She'd like to travel around the world and find a husband — anything to get out of Hilda. To her Mom and Dad: "special thanks; I guess we can stop the count down now. I couldn't have made it without you."*

**Mike Crane**

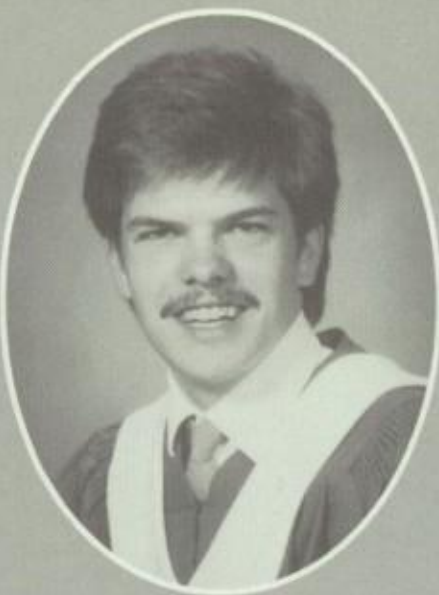

*Life is one of Mike's peeves — and people who take his tapes. Death is his ultimate doom, but first he'd like to start a company for the production of solar-powered flashlights.*

**Scott Crawford**

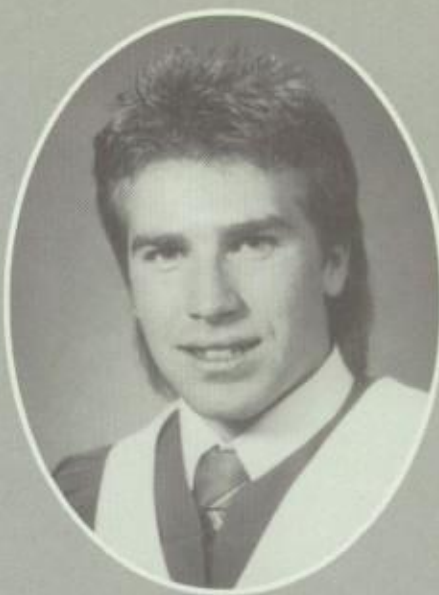

**John Davies**

Waitresses who take away the sugar take the pleasure out of Billy Joel's life, and he isn't keen on winter swimming in Anthony's pond, either. His goal is to attend Sait and to have his own drafting corporation.

**Warren Deibert**

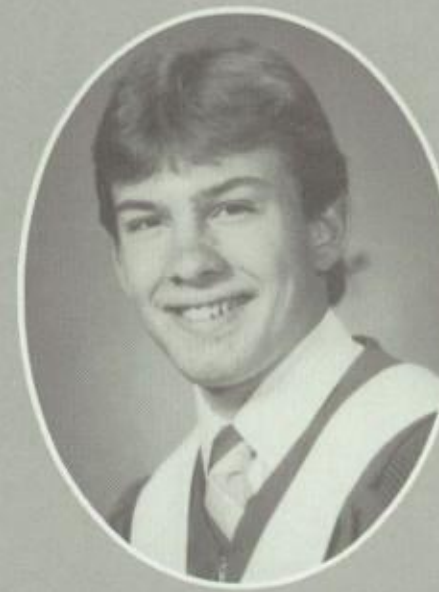

"How 'bout a ham sandwich?" is Sweeper Muldoon's favorite saying. He keeps very busy with football, rat pack, steamrolling, and smashing derbies, but he's bugged by the changing taste of Coke. He hopes to find out what to do when no one else can dance like him.

**Shayne Denman**

Father Fufu spends his time boxing, playing guitar, and running — to the nearest pub with his paycheck. ("Somebody's got to do it.") He'd like to retire at forty.

**John Dewalt****Andrew Doucet****Jason Dousett**

To work at Safeway for the rest of his life would be Duce's ultimate doom. He likes parties, curling and baseball — but he'd prefer to play more than seventeen innings in a baseball season.

**Jeffrey Dowling**

Jeff would much rather be a broadcasting personality than a fish-truck driver, and he'd rather spend his time at sports, theatre, and macaroni eating than with people who criticize "Gilligan's Island." To the grads and to everyone: "Rock on!"

**Lee Drake**

**Darryl Draudson**

*Mr. Butterfly keeper enjoys football, Rat Pack, and safaris. He's peeved by Mr. T's "Go when I say go, and not before."*

**Serena Dueck**

*Serena would love to blast everyone away in the Indy 500, driving a yellow Volkswagon Beetle. Until that happens, she'll practice barrel racing, poetry, camping, and guitar playing. (maybe she could practice blasting away kids on mopeds.)*

**Melonee Dyck**

*Melonee enjoys drama, football games, grad parties, and seeing Jeff's impersonation of the College bus; she's having so much fun, she plans to die at grad (why spoil a good thing by growing up?) To all grads: "Keep thinking sun, rainbows and pink jellybeans."*

**Victoria Drysdale**

*Vikki hates stupidity but, loves music, art, writing, spiritual self-enlightenment through meditation, and spreading peace, love, and the doctrines of Neo-Nihilism. It would be a real shame if her ultimate doom was to drown in a washing machine. She'd like to attain international fame, and a fortune substantial enough to live like a Bohemian. "Partying is such sweet sorrow," she reminds grads.*

**Paul Dunn**

**Nancy Dyck**

**Terry Eisenbarth**

*The Rat King enjoys Rat Pack (of course), skiing, Europe, and watching Darryl wreck his truck. He hopes to organize a safari to find the beef; they can always sleep in his truck.*

### Sharon Ekman

Smurf would hate to have to go to school for another thirteen years — and to have her name spelled with a "c" forever. Her chief complaint is the short time between classes. When she isn't involved with ISCF, band, reading, church and Resource Centre, she's with Yvonne, Joanne, Denise, and the rest of the gang. On her way to becoming a missionary nurse, wife and mother, she says: "Special thanks to my family, friends, and the Lord; I couldn't have done it without you. Good luck, grads, see you soon — it's only the beginning!"

Jodi Ellis

### Kathryn Ellis

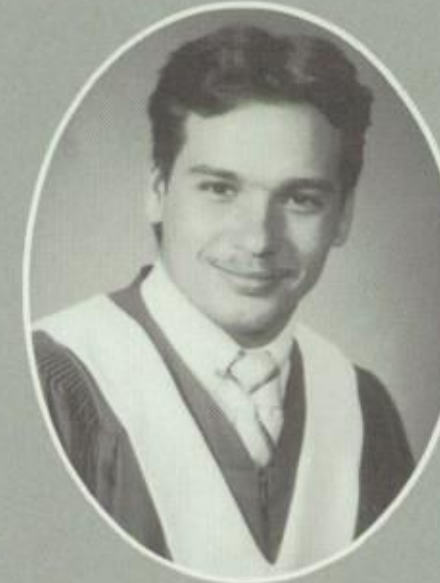

As the only girl in Mr. S's Comp 30, Katie often had to say "Lake a hike!" She unwinds with swimming, reading, drawing, letter-writing to penpals, and biking. She's glad to leave school, but looking forward to Early Childhood studies at college. To the grads: "Good luck, everyone."

Mark Elsasser

### Michael Erb

Toby's ultimate doom would be never to graduate, and to end up doing his least — favorite thing: having spares in the library. He hasn't got a future ambition yet; until he decides, he'll keep on partying.

Eremenko, Darren

Law beer tolerance is Myron Muldoony's pet peeve; his major interests include football, Budweiser, and girls ("Ya, that's the ticket.")

### Katherine Erick

"Don't bug me!" Skipale needs to concentrate on her particular interests: skiing and men. Her idea of ultimate doom: having to take another math or chem. class. Her pet peeve is big feet, which may interfere with her ambition to own as many pairs of shoes as Imelda Marcos.

Stephanie Fai

When she finds her future ambition, it will not include taking math 30 again, or losing her parking space to Mr. P. It will probably continue to include fastball, dancing and drawing. To the grads: "Best of luck to all of you; I'll miss you!"

*Darlene Fehr*

*Bear Fehr likes swimming, eating junk food and driving Dwayne crazy. Her nightmare would be to have the school cafeteria cater her wedding!*

*Lisa Fisher*

*Douglas Fode*

*Sheryl Folland*

*Being a rehabilitation practitioner would sure beat a lifelong job at McDonald's for Sher-Bear. Peer support team and Mike D. take up much of her time.*

After finishing school (and looking after C. at grad parties), Sher-Bear would like to head for University of Hawaii, there to continue her interest in athletics, horses, and Rambo.

### **Les Friesen**

**Todd Hall**

When asked advice, Walrus replies: "Sound like a personal problem to me." He'd rather spend time with Laura, or swimming, shooting, or in Army Cadets. **Carrie Johnson**

*Elbow Picks likes working, rock-shiping, and Les. She'd like to be an X-ray technician.*

**Chad Leskis****Dean Linden****Tracy Linden**

**Kirk Meyer**

**Rob Morgan****Mike Mueller**

Staying in school another year would hamper Mikey's ambition to become rich and famous. It probably wouldn't hamper his skiing, dirt-biking, music, mustangs and cold beer.

### **Floyd Rath**

*"Ho hum." How can he be bored, with ISCF, senior concert band, Bible studies, youth group, listening to and writing music to fill his-time? He's peeved by lack of heating systems and by squeaky desks, but he'd better get used to them if he wants to teach high school.*

### **Louise Rath**

Trucks (anything but Dodges), music, and girl watching are Tim's hobbies; Trans Ams and Camaros are low on his good-car list. He plans a future in the design and manufacture of support systems (ask him).

### **Lawrence Rodnunsky**

Fred enjoys electronics, guitar, NHL hockey and cars. His fond memories of English homework and K.B.'s jokes will never die. On his way to a career in electronics technology, he says: "Mom, Dad, and Peter: I couldn't have done this without you. Thanks for being there!"

### **Cindy Roose**

"Roosie" tells us she doesn't have a pet named Peeve; everything bugs her (Math 33, for example). She likes curling, motorsports, and writing, and hopes to have a marketing job and a chance to travel. "Good luck to all."

### **Lisa Roose**

A third time in Grade 12 is Leese's nightmare ("I hate it when that happens."), but bars, art, parties, and Saskatchewan men are her dreams. Her hope is to go to Sheridan and become a graphic designer. "To my families and friends, thanks, especially my Dad and Karen, who I couldn't have made it without. Congratulations, grads; we made it!"

### **Anna Rosborough**

"Mom, what am I going to wear today?" Anna knows she'll hear that when she has teenagers of her own, but until that fateful day she'll keep busy with church, singing, swimming, and dating the sweetest redhead in the world. She wants to be a dental assistant, get married, and live happily (until her kids become teenagers . . .)

### **Greg Rossler**

### **Kathy Ruff**

"Gimme a break!" says Kit Kat — especially to 400 lb people who eat at the DQ and then show up at aerobics class. Figure skating, partying, and testing her spidey senses with Cheryl fill up her time now; someday she hopes to be a tall, slim great figureskating coach.

**Colleen Russell**

*"Calm down, mother" — it's hard for Reb to get up early. She needs her rest for baseball, hockey, pool, trips to Calgary, and fires in Lions Park. Her maddest ambition is to live in a big city and be happy.*

**Edward Russell**

*Fast Eddie enjoys waterskiing, hockey, girls, nice cars, and bar-hopping. He doesn't enjoy going to work every day at 2:30, or the idea of repeating Autobody 32. To win a million and retire is his desire.*

**Rory Scherer**

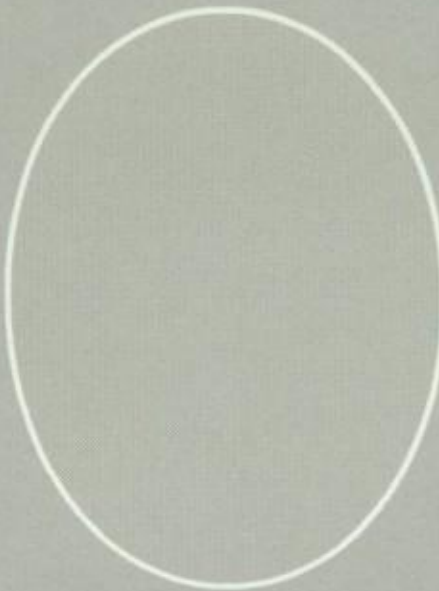

*Earthworms, cruising and parties keep him occupied (I'm only here for a beer.), but somehow bad weather follows him everywhere. He'd like to be a mechanical engineer.*

**Tom Schlenker**

*If he becomes a fireman, Tom can drown guys who wear pink shirts. Till then, he'll hunt, party, drive fast, camp, do bodybuilding, and pursue the opposite sex. He bids a fond farewell to Drafting classes.*

**Kevin Schmidt**

*Kong likes street hockey, racquetball, VHS movies, cruising, and meeting girls. He sure hopes he's got all his career prerequisites; he'd rather not have to come back to school. His future includes a high-paying job and marriage.*

**Mavis Schneider**

*"Smiles go up, not down," says Maynard, and she should know. Nothing makes her smile but Levy, parties, 4x4's, riding horses, skiing, and cowboys. Her doom would be to come to a ten-year reunion fat, and with ten screaming, pixy-nosed kids. Her hope is to become a registered nurse.*

**Arnold Schwabe****Joseph Seitz**

*Motorcross, alligator wrestling, cliff driving and drinking amuse Joe; it'll be a dark day when alcohol and chew are outlawed ("Oh, darn.") In spite of his dislike for education, he'd like to become a veterinarian; failing that, he'd like to marry money and never work again.*

**Dean Sept**

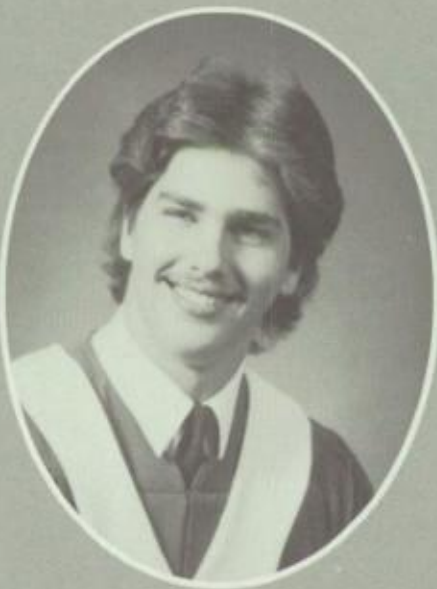

*He can be found motorbiking, drinking, or recovering (from which?), and snarling "You're toast!" at people who open bottles with their teeth. A job in aircraft maintenance is his dream.*

**Darryl Shoemaker**

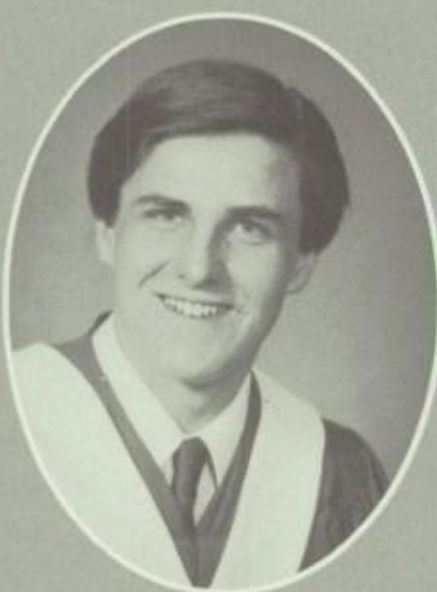

*"Montreal sucks!" says Mucker; the only things worse than Montreal are rooming with Les and Ted in Europe, or being trapped in Les' car with Couie's dogs. When he isn't bugging Lynette in English 30, he's plotting how to beat Glenn in card hockey.*

**Andy Skauge**

*Consumption (of what?), hockey, baseball, football, cruising, and bugging Mr. M. are Skaugie's pastimes. He hates meeting teachers in the liquor store (for obvious reasons), and his nightmare is the shutdown of Carling-O'Keefe. He'd like to get his Ph.D. in beer sampling.*

**Stephen Slater****Michelle Slobodin**

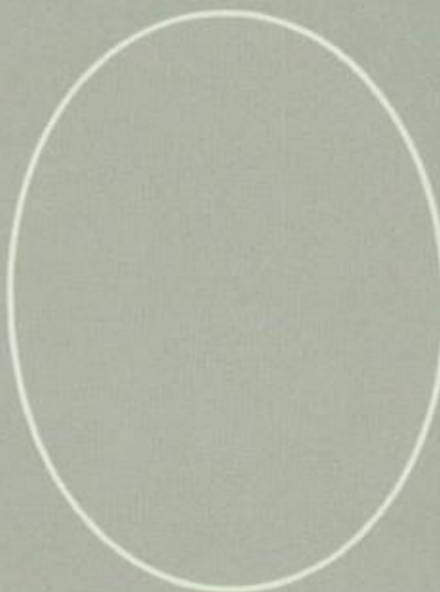

*Hippy likes Calgary, pool, partying, and rye, but not the idea of living in Medicine Hat all her life (or another Social 30 class). Her ambition is to get married.*

**Brent Smith**

*Bunt's ultimate doom would be to jump another approach at a grad party (he'd rather drink warm beer). Trikes, beer, and lounging are his hobbies; his aim is mechanical engineering.*

**Greg Smith**

*Smitty enjoys baseball, football, and hockey, and dislikes geeks. He hopes to become a steam engineer.*

**Lisa Smith**

*To marry and raise a family is her goal — anyplace but Redcliff. Until then, she'll read, and spend time with Darren.*

**Patsy Specht**

**Todd Stadnyk**

Spudnick's doom would be more school in Medicine Hat. He'd rather "party hearty."

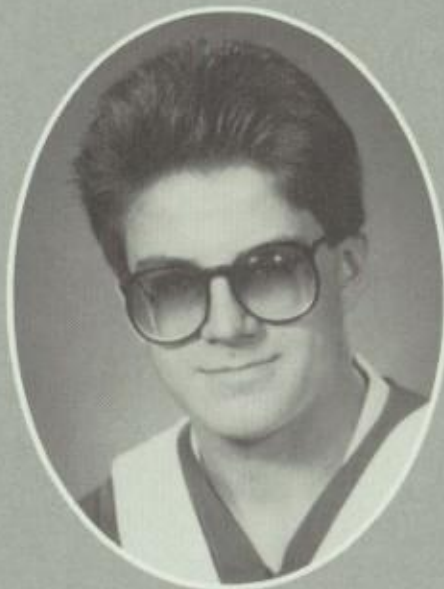

**Anita Stehr**

Men, parties, Labatt's (not Budweiser), football, and Calgary Flames games are Neto's pastimes. She hopes to work with animals in the future (not party animals).

**Andy Stonehouse**

When Andy isn't spending his time watching people being miserable to one another, or listening to weird music, he contemplates his ambitions of record executive weasel or moody Philosophy major. He dislikes complacency and normalcy, and hopes never to reminisce happily about high school. His word to everyone: "It doesn't matter where you go — there you are."

**Susan Stoutenberg**

People who complain peeve Suz ("Everything's cool."), who'd rather watch the Oilers play hockey. Marriage would be her doom; truck driving is her goal. "Best of luck to present and future grads!"

**Coralee Stoyke**

Car would like to live happily ever after — but she'll have to keep from getting grounded for another month first. Partying, grad fun, and waterskiing are her favorite things.

**Glen Suberlak**

Suby's bugged by people who judge others by appearance and company, and not on their individual merits. He wants to travel and to take the time to decide what he wants in life before settling on a goal.

**Tracy Teasdale**

Curling, baseball, poetry, and causing trouble (especially for people who pat her on the head) are Stretch's pastimes. Her doom would be to have another party and have over 500 people show up. On her way to a business career, she says: "It's been great to know you all. I'll miss you; let's keep in touch. Good luck in the future."

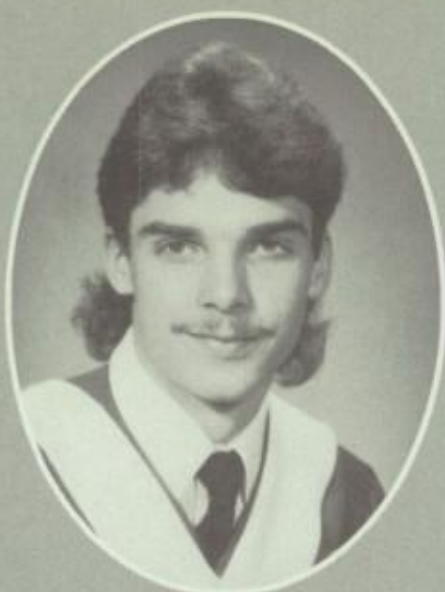

**Garry Tessman**

*Cars, volleyball, hockey, and drag-racing are his favorite pastimes. He hates people who blow smoke in his face, and the idea of another year of school. Some day he hopes to have his own garage and auto parts shop.*

**Brian Theriault**

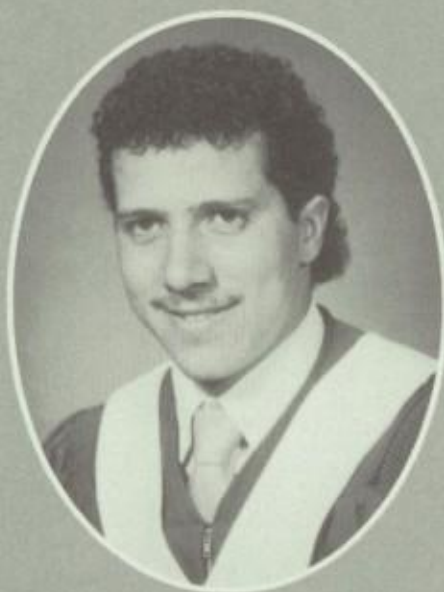

*To catch javelins at the Olympics would be Brian's ultimate doom — or to watch people picking their noses with their thumbs. He spends his time with volleyball, slowpitch, and amber, and aims at a career in Drafting technology.*

**Beth Thompson****Pamela Thompson**

*P.J. enjoys drama, Key Club, and buying clothes — in fact, she'd like to be the manager of Le Chateau so she can wear the clothes. She'll be glad to leave Math and gumchewing behind.*

**Keith Tisnic**

*"Sir, how the — are ya?" says Tizy. He keeps busy with Bert, parties, and hockey, and hopes to continue with hockey at University.*

**Brad Tood**

*Wop enjoys evenings with law enforcement officers, but not skunky Kool-aid. He wants to become a freelance artist and get rich, but first he'll have to escape capture and classification by fanatical environmentalists.*

**Georgina Townsend**

*Parties, cheerleading, and Blaine and Gina-bean's hobbies ("No doubt!!!"). She hopes to become a Travel Consultant, and to get far, far away from English 30.*

**Anthony Tripp**

*Ampf spends a lot of time at music, experiments, and determining reality. The silent majority bothers him, and so does the prospect of marriage, permanent job, and settling down. That might hamper his goal: to satisfy all his needs with the most fun and excitement possible.*

**Lana Ulbricht**

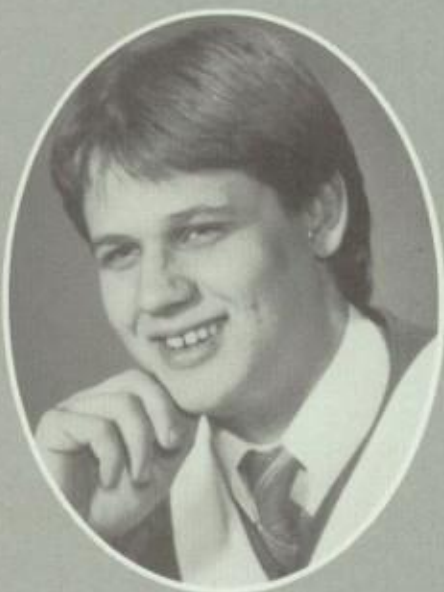

**Todd Ulrichsen**

*Cycling and guitar playing are more fun for Todd than in-class essays, and a lot less scary than a lifelong addiction to Redcliff water. "Best of luck to all grads, and thanks, Mom and Dad."*

**Steven Vandam**

*Freego likes football, baseball, and mudfights — not lunchroom discussions. His ambition is still not clear.*

**Todd Van Maarion**

*Van Man trains turtles to walk on their hind legs (with what success, he won't say). He dislikes warm beer and surprises on dates, and he'd like to be a rich South American agriculturist.*

**Lona Van Riper**

*"The party is just beginning," says Evergreen. Suntanning, guys, grad parties, dancing, swimming, and hairdressing — so much to do; math will just have to go. Her ambition is to be the best hairdresser ever.*

**Deena Vollman**

*"Get lost!!" says Dina, to guys who think they're "it." She'd rather spend her time watching people watch her, and pursuing unconceited men. She wants to be a corporation president, not an all-night worker at the Gemini Drive-In (ever again). "I'd like to thank Mom and Dad for their support, and I hope all grads fulfill their dreams and keep in touch with each other."*

**Shane Vorra**

*Know-it-alls bug Pony; so do guardrails. Automotives, beer, gorgeous women, and old Chevy trucks appeal to him. His future is uncertain; he'd like to be a Mountie or a truck driver.*

**Mandy Wagenaar**

*Mandible hates fish that bite and cars that don't run in the rain, snow, sleet, etc. She plans to enjoy life to the fullest, and right now that means Ralph, bars, and partying. "Thanks, to Mom and George, for helping me make it to the end."*

### Tracy Waite

"Men — you can't live with 'em and you can't live without 'em!" So true. Running out of nail polish or hairspray can be annoying, too. S.P., peer support team, eating, and doing her nails in class keep Dee busy. Her ambition is to be happy, healthy, beautiful, and RICH!

### David Webster

Webby wants to be an NHL linesman; it sure beats riding downhill in a bathtub. He likes wine, women and song — but don't bug him about women.

### Robin Webster

Robin plans to be successful, to leave home, and to leave Math class forever. She enjoys meeting new people, partying, going to the bar, and guys. "Thanks, Mom and Dad, for your help. I couldn't have done it without you."

### Dean Weiting

### Carol Wilkinson

"I don't know; leave me alone!" (Wilky, in English 30 or in French). Hayrides, racquetball, sewing, minigolf, and Chinese firedrills are a few of her favorite things. Her future goal is to teach Home Ec.

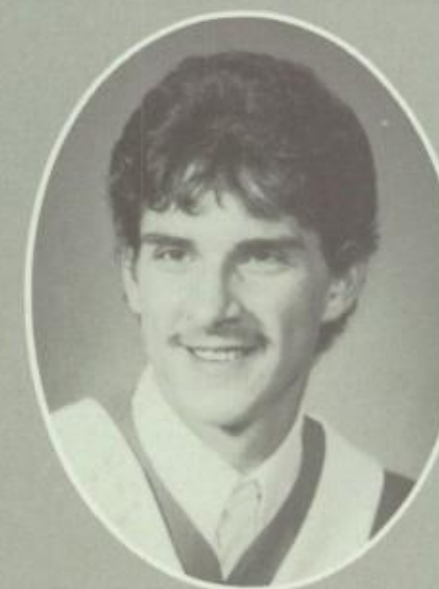

### Shairon Willcox

Racquetball, Chinese firedrills, Jamie, hayrides, drive-inn, and sewing are Waver's activities. She hasn't any time for backseat drivers (especially Carol) or Math 31. Her future plan is to become a chartered accountant.

### Fay Wilson

Pokey's fondest memory is the great time at Elkwater. She also enjoys parties, Tiger games, music, and tall blond, blue-eyed guys ("Did you see that !!!"). She hopes to be successful at whatever she does. "Good luck to all grads. It's been great!!"

### Vern Wilson

Waterskiing, camping, and Harley-Davidsons are "Awesome!" English and younger brothers and sisters aren't. Dude hopes to graduate, work in computers, and make a million.

**Jacalyn Woelfle**

*Hair in food and keys locked in cars can really "freak my beak!", Wolfbang tells us. She likes partying, darkhaired men, and going to the bar, and plans to take over all the insurance companies there are.*

**Derrick Wong**

*Wango needs to find out his ambition, but he knows it isn't to own another Honda Civic. Golf, beer, skiing, beer, parties, and beer are his interests.*

**Robert Worden**

*Game Worden enjoys parties, bars, firewalking, and the Rat Pack. His goal: to be an executive with megabucks and to defeat the dark forces of the liquor inspection bureau.*

**Kimberly Wyse**

*Skim dislikes people who dislike Wham, but likes jaguars, water polo, money, and shopping. Her aim: to be extremely rich. To all grads: "never surrender!" and to Mom and Dad: "I love you; thanks."*

**Lori Svolensky**

## SPORTS

## JUNIOR BOYS' BASKETBALL

The Junior Mowahks had a highly successful season, finishing third in the Junior High League. The Mohawks also entered a number of tournaments, which included: Swift Current, Brooks, C.H.H.S. and St. Mary's/McCoy.

This year's team was a rookie-laden squad with 10 grade eights and two grade nines. What was lacking in experience was made up with hustle, dedication and enthusiasm. In all it was a very good and exciting year, with great things expected next season.

## JUNIOR KWAHOMMIES BASKETBALL

The Junior Kwahommies won the City Championship this year and also enjoyed a very successful tournament schedule. Playing in the Coutts, Brooks, Swift Current, McCoy and A.J.H.S. tournaments, the girls received a trophy at each tournament. As well as being successful on the basketball court, the girls developed an exceptional team spirit and spirit of camaraderie. We are proud to say they represented our school well.

The 1985-86 edition of the Junior Varsity Kwahommies had a very successful year. We finished third in the league with a record of eight wins and five losses. In addition, we attended an Invitational Tournament at Leduc in which we played the championship game. Sadly, we lost by three points but were happy to learn that Lorraine Rothfus was elected Most Valuable Player and Kerri Lonson received a Tournament Star.

We would like to thank all those who helped us this year and we look forward to another successful year.

# ADDITIONAL (SPORTS) INTERESTS

## Randy Derheim Memorial Award

1983 marked the first year that a trophy was awarded for the most dedicated Mohawk Volleyball Player. It is known as the "Randy Derheim Memorial Award" in honour of a former Medicine Hat High School student who excelled in the sport at MHHS.

Those who remember Randy recall a dedicated, caring, competitive individual who was a friend to all. Randy will never reach the goals he set for himself but his family and friends hope that the trophy and award in his honour will benefit other young men like him.

This year's recipient of the Randy Derheim Memorial Award was SEAN BUECKERT. Sean was chosen by his team players as the most devoted player.

This year's Junior High Badminton team attended two tournaments, one at Brooks and the other at the Medicine Hat College sponsored by Alexandra Junior High.

City Finals were also held at the College; congratulations are extended to Bart Vanstone who captured second place in the grade eight boys' singles division at this final tourney.

Players practiced diligently all season and a good crop of grade nine players in all divisions is expected for the 1986-87 badminton season.

# WRESTLING CLUB

Jeff led the team all year in medal winnings, picking up two golds at the first two tournaments attended. He went on to win a bronze at the Rural Provincial Finals (pictured) which qualified him for the high school provincials in Calgary, finishing fifth.

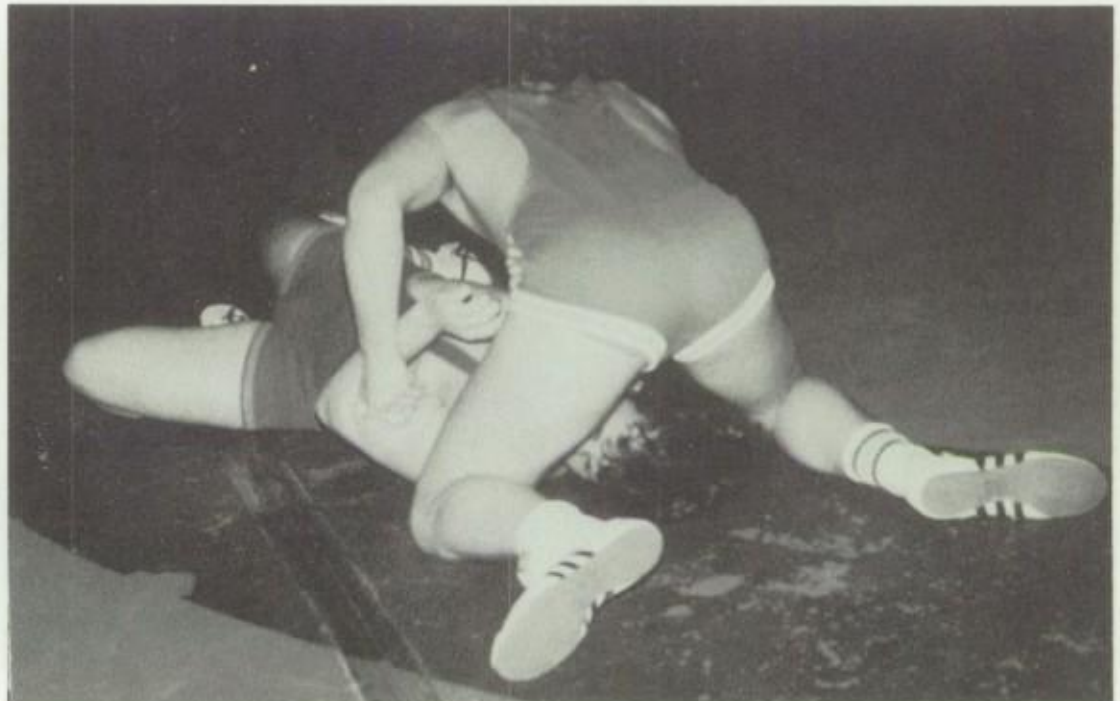

Bruce was the underdog all season. In many of the tournaments it seemed that he would be beaten, but always came back to salvage a placing in the top six wrestlers. In the photo Bruce won his medal the hard way by having to beat previously undefeated opponents, to place third at the Rural Championships. Bruce also went to place fifth at the provincial finals.

# EXCHANGE STUDENTS — GERMANY

## German-Canadian Exchange, 1985-86

In this our second year of participation in an international exchange program, we received two German girls from Bavaria at MHHS. Kerstin Hendricks and Angela Vogel arrived in September 1985 to experience true Canadian atmosphere and weather conditions. As their plane landed in Calgary, the girls looked out of its windows to catch a first glimpse of the province in which they would be spending the next three months, and saw an early snow storm, rather than the city of Calgary. Their hosts, Rosalind and Jennifer Schmitke, assured them that this was not the usual pattern for sunny Alberta, but the beautiful Indian Summer for which Alberta is known, did not come, and it was an extremely cold three months for the two Bavarians eager to learn English and experience Canada.

Kerstin and Angela did, however enjoy their stay in our province and in our school thanks to the many students and teachers at MHHS who showed an interest in their adventure in a foreign country, and whose friendliness and hospitality gives our school the right to claim any status as the best high school in Alberta. A hearty thanks goes to those generous people.

On April 4, 1986 our MHHS students, Rosalind and Jennifer, flew to Frankfurt, Germany, then went on by train to live in the two households from which they had received their guests. They had to work hard to prepare themselves for this tremendous learning experience, whose value cannot be measured in terms of points or percentages or money. Like Alfred Lord Tennyson's Ulysses, our two adventurous grade ten students left this "still hearth" and with a "hungry heart" are roaming in order to see and know "cities of men, and manners, climates, councils, governments". Like Ulysses, too, they will be able to say that they have suffered greatly, but also that they have enjoyed greatly. We thank Dr. Sauer for promoting the exchange, the school board for their hearty endorsement of its educational value as well as their financial support, the Saamis Rotary Club for its financial contribution, and all those administrators and teachers who helped Jennifer and Rosalind by providing them early in the year with learning materials so that they could work ahead in order to obtain their credits, as well as to those who wished them a cheery "bon voyage" on their last school day before this fantastic trip. We wish the girls a successful time as they are learning not only a second language, but a great deal about humanity and the world, and congratulate them on their courage:

"To follow knowledge like a sinking star,  
Beyond the utmost bound of human thought"

# INTER SCHOOL CHRISTIAN FELLOWSHIP

Inter-School Christian Fellowship (I.S.C.F.) is an international organization that is designed to supply for the spiritual life of the student. The acronym "I.S.C.F." can be made into the phrase "I Serve Christ First", one of the basic purposes of the Christian Faith.

The other purposes of this year's ISCF group have been the witnessing of Christ's power on our lives, fellowship and growth with each other, and learning more about God's Word and how it relates to life today. I.S.C.F. is an inter-denominational group — all faiths. We welcome new members of any Church or non-Church background.

# DRAMA

## Grade "8" Drama —

In the second semester, the Grade Eights made films which were shown at the "Feast of Fine Arts." Many parents and friends saw the creativity displayed by these students.

## Grade "9" Drama —

This year's three classes did many projects — some for elementary schools, for their peers and for their parents. They found out how difficult it is to perform before a live audience.

## Grade "10" Drama —

In the second semester, this class did three performances of "Johnny Canuck" which was well received.

## Drama 20/30 —

These students did very well this year. Some of their projects were:

"Lovers", a full length play starring Jeff Dowling, Arlayna Alcock, Brian McGlashen and Pam Thompson.

Theatre Spots Gold Medal winners at the Winter Games in Edson: Jeff Dowling, Brian McGlashen, Scott Anderson and Deanna Perschon.

*Jeff Dowling and Arlayna Alcock in "Lovers".*

## Additional Achievements —

- 100-Year Anniversary Show for School District No. 74: "Four Dancing Couples"
- Zone 7 One-Act Festival, awards won:
  - Herta Rustalka Dramatic Achievement Award: "A Small Amount of Eccentric Reality"
  - Firehall Theatre Director's Award: Brian McGlashen
  - Danny Hall Best Actress: Melanie Dyck
  - Division 4 Runner-Up Award: "This Property is Condemned"

Most seniors put in long hard hours and the level of their achievement shows this. I'd like to thank them for their efforts.

# ADMINISTRATOR OF THE YEAR 1986

**DR. KENNETH C. SAUER**  
**SUPERINTENDENT OF SCHOOLS**

The Council of School Administrators of the Alberta Teachers' Association's Distinguished Service Award — "ADMINISTRATOR OF THE YEAR", at the School System Level, was awarded to Dr. Kenneth C. Sauer, Superintendent of Schools, Medicine Hat School District No. 76.

In Education, the students must have dedicated teachers, hard-working administrators, and an energetic support staff to enable them to fulfill all their expectations and goals. Medicine Hat High School has always endeavoured to maintain the above criteria. The School Board, and particularly the Superintendent and his staff, must provide the leadership required to enable each individual school to complete their roles in educating our young people. It is very gratifying to everyone associated with our school system, Medicine Hat School District #76, that Dr. Kenneth C. Sauer was recognized for his leadership and organizational prowess.

We the CH<sub>4</sub> Staff, are honored and pleased to be able to recognize Dr. Sauer as an example of quality leadership that is found in our whole School System, and particularly our own school, Medicine Hat High School.
